Jamison Olave

You are about to read about Jamison Olave. He is from a different country. He is a professional soccer player. He has helped Utah by playing soccer.

Jamison Olave is from Columbia. He used to play soccer there. He played for three seasons in Colombia, from 2002 until the end of the 2004 season. Then he came to America to play soccer. He lives here with his family now.

Olave has done a lot for Utah. He helps Real Salt Lake win games. That's his job. Real Salt Lake won the MLS Cup last year. He and the team play their games at Rio Tinto Stadium. It's located in Sandy Utah.

There are a lot of positions but Jamison Olave is the center back. The center back is a part of the defense. The defense is when you protect the goal, without it, it would be easy for the other team to score. He's a very fast player. We won't have to worry about defense anymore with him around now.

Olave went to school and got good grades. He had to go to college if he wanted to play professional soccer. If I work hard like him I will be a soccer player just like him. He was born in April 21,1981. He lives in Salt Lake City. He is married and has two kids. He is from Colombia.

They built a soccer field for Real Salt Lake. The soccer field is in Sandy, UT. He never missed soccer practices. He has never got into a fight playing soccer. He never complained to the referee.
